Project Guide: **Miss.S.S.Demanna**

The Problem

Many senior citizens struggle with smartphones, computers and online services due to limited digital knowledge and low confidence, making them dependent on others for routine digital tasks.

The digital divide leaves millions of seniors isolated from essential services.

- Banking
- Healthcare
- Payments
- Govt. Portals

Objectives

1

Digital Literacy

Improve basic digital skills among senior citizens.

2

Safe Device Use

Teach safe use of smartphones and the internet.

3

Cyber Security

Raise awareness about online fraud and cyber threats.

4

Digital Payments

Help seniors confidently use UPI and payment apps.

Why This Project Matters

Rapid Digital Transformation

Banking, UPI and services moving online.

Reduce the Digital Divide

Promote independence and confidence.

Fraud Protection

Protect seniors from cyber fraud and scams.

Field Visit: Rotary Club Ichalkaranji

DISTRICT 3170

Purpose of the visit

- Assess current digital literacy levels
- Find tasks seniors find most difficult
- Learn about prior experience with online fraud
- Gather preferred learning methods

Visit letter dated 12/10/2026 for the Senior Citizens Digital Literacy Awareness Program.

Key Observations

Basic use only

Most owned smartphones but used only calling and messaging.

UPI hesitation

Unaware of safe UPI practices; afraid of making mistakes.

Scam exposure

Received suspicious calls/messages, unsure how to report them.

Eager to learn

Strong interest if the pace is slow and instructions are repeated.

Technical Solutions

Hands-On Modules

30-45 min sessions, repeated practice, 1-to-1 volunteers

Easy Material

Large-font handbooks, numbered steps, take-home copies

Guided UPI Practice

Demo or low-value transactions, each screen explained

Cyber Safety

Real cases, scam-call role-play, warning-signs checklist

Buddy System

Student volunteer paired with each senior, follow-ups

Feedback Loop

Feedback forms after sessions, helpline for queries

Methodology

A structured, step-by-step approach gives senior citizens practical, accessible and effective digital training.

Project Timeline

1. **Weeks 1-2** Project Planning
2. **Weeks 3-4** Content Preparation
3. **Weeks 5-6** Training Material Development
4. **Weeks 7-9** Awareness & Training Sessions
5. **Weeks 10-12** Feedback Collection
6. **Weeks 13-15** Report Preparation & Presentation

Expected Outcomes

Device Confidence

Better understanding of smartphones and digital devices.

Safe Banking

Secure use of online banking and UPI applications.

Communication

Improved connection with family and friends.

Independence

Greater independence in healthcare and government services.

Digital Confidence

Increased confidence in using digital services.

Cyber Awareness

Awareness of cyber security and fraud prevention.

Conclusion & Key Takeaways

Bridging the Divide

Digital literacy gives seniors independence in banking, healthcare and government services.

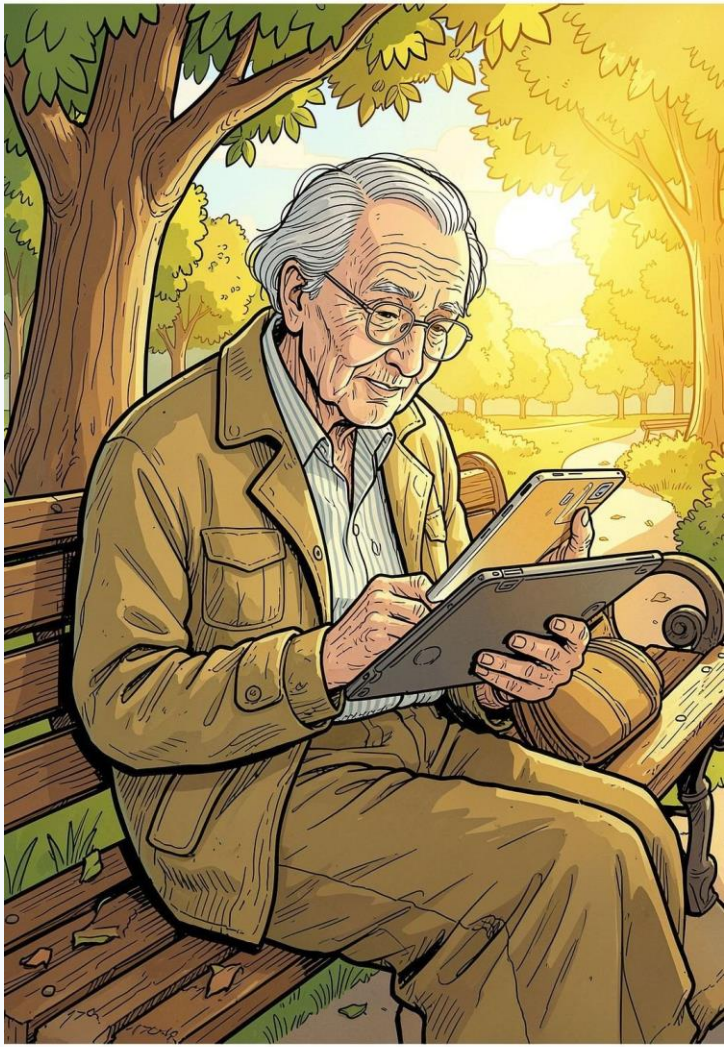

Safety First

Awareness of UPI fraud, fake calls and phishing protects seniors online.

Our Growth

We gained empathy, communication skills and a sense of social responsibility.
